PROFESSIONAL SUMMARY

ECE student with a strong foundation in Java and backend development, hands-on experience through internships and academic projects, and active DSA practice. Quick learner with problem-solving skills, seeking a software engineering role to contribute and grow in a dynamic team environment.

EDUCATION

B.E. Electronics and Communication Engineering — **2023 – 2027**

R.M.D. Engineering College (Full-Time) — **CGPA: 7.97/10**

Class XII – CBSE, Velammal Vidyalaya, Avadi — **2023 | 79.8%**

Class X – CBSE, Velammal Vidyalaya, Avadi — **2021 | 91.8%**

INTERNSHIP EXPERIENCE

Software Engineering Intern — **June 2026 – Present**

Nurovec India Private Limited

- Developed an OCR receipt processor using Java, Tesseract OCR, and JSON for structured receipt data extraction.
- Developed a WhatsApp Mini CRM Chrome Extension for automated contact extraction using JavaScript.

Research Intern — **June 2025 – July 2025**

CVRDE, Ministry of Defence

- Studied high-speed video transmission systems and gained exposure to embedded communication interfaces.

PROJECTS

CNG CONNECT – Location & Navigation Platform

- Developed a location-based web application using HTML, CSS, JavaScript, Leaflet.js, and Spring Boot.
- Implemented REST APIs using Spring Boot and integrated MongoDB for managing users, stations, and application data.
- Implemented authentication for two roles – Firebase Authentication (Google + Email/Password) for users and a server-side password check for station managers.
- Set up GitHub Actions CI/CD pipeline; deployed application on Render and Railway.

UPI SETTLE – Merchant Payment Reconciliation Engine

- Developed a Java-based reconciliation engine that simulates merchant payment and settlement records for transaction analysis.
- Implemented business rules to identify matched, missing, duplicate, and amount-mismatched settlement records.
- Generated reconciliation summary and exception reports with match rates, discrepancy tracking, and duplicate counts.

SKILLS

Programming Languages: Java, JavaScript
Frontend Development: HTML, CSS, JavaScript, React.js (Basics)
Backend Development: Spring Boot, REST APIs
Databases: MySQL, MongoDB Atlas
Tools & Platforms: Git, GitHub, Postman, GitHub Actions
Deployment: Render, Railway

CERTIFICATIONS

- Introduction to Internet of Things (IoT) – IIT Kharagpur via NPTEL
- Java Programming – CASS Academy Computer Education
- AI and Career Empowerment – University of Maryland

ACHIEVEMENTS

- LeetCode: 150+ problems solved | HackerRank: 5-Star badge in Java Programming
- First Prize – Technical Quiz, Meenakshi Sundararajan Engineering College
- Smart India Hackathon (SIH) 2025 – Advanced to Chennai Cluster Level
- QNX India Hackathon – Advanced to Cluster Level
- Certificate of Achievement – Walmart Sparkathon 2025
